UM3X™ | 3-Way Universal High-End Driver IEM

If you think in-ear musicians' monitors are reserved only for high profile musicians and rock stars, you need to check out Westone's Universal Series. You've never heard it so good, feedback is eliminated, onstage noise levels are lowered and vocal fatigue is reduced. Universal Series in-ear musicians' monitors not only allow you to hear with clarity and crispness, but when used properly, will help protect your priceless hearing.

The new UM3X offers the latest in balanced armature technology with a true three-way design. Separate high, mid and low frequency drivers deliver incredibly smooth response across all frequencies. The UM3X is the ultimate universal-fit musicians' monitor range. Using the same technology as our custom ES3X, the UM3X is the earpiece of choice for "on stage" performers. High-end sound quality in a universal-fit package. The comfortable Comply™ foam tips form to the ear for extended use without fatigue and provide up to 25 dB ambient noise reduction.

UM3X Specifications

- Sensitivity:** 119 dB SPL. **Frequency response:** 20 Hz -18 kHz. **Impedance:** 56 ohms.
- Driver:** three balanced armature drivers with a passive three-way crossover.
- Features:** Soft padded pouch, replaceable Comply foam tips and wax loop for cleaning. Available only in black/clear.
